

Asalamoualaykoum Parents

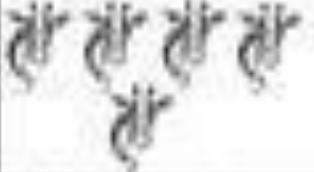

Your child has been working on number recognition and number order counting forwards from 1-8 and identifying shapes. This week was assessment week and for homework could you please help your child to recall the numbers learnt so far.

Firstly, tell your child they will be working on one row at a time.

Secondly, tell your child to count the object/s in each row, then read/say the number out.

Thirdly, get them to practice writing the number while repeating it and using the number rhymes learnt.

Lastly, for the next activity tell your child to match the shapes together.

	1	1	1	1	1
	2	2	2	2	2
	3	3	3	3	3
	4	4	4	4	4
	5	5	5	5	5
	6	6	6	6	6
	7	7	7	7	7
	8	8	8	8	8

Match the shapes.
