

Reception Math's

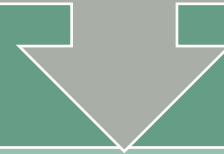

Week 3:

18:01.21- 22.01.21

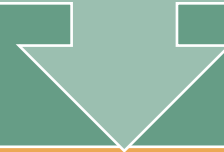

Introduction

This week your child will be learning how to sequence events in their daily lives they encounter either in school or at home. Please encourage and support your child to do the following activities each day.

What does sequencing mean?

Sequencing is the ability to logically order events, images, thoughts, and actions.

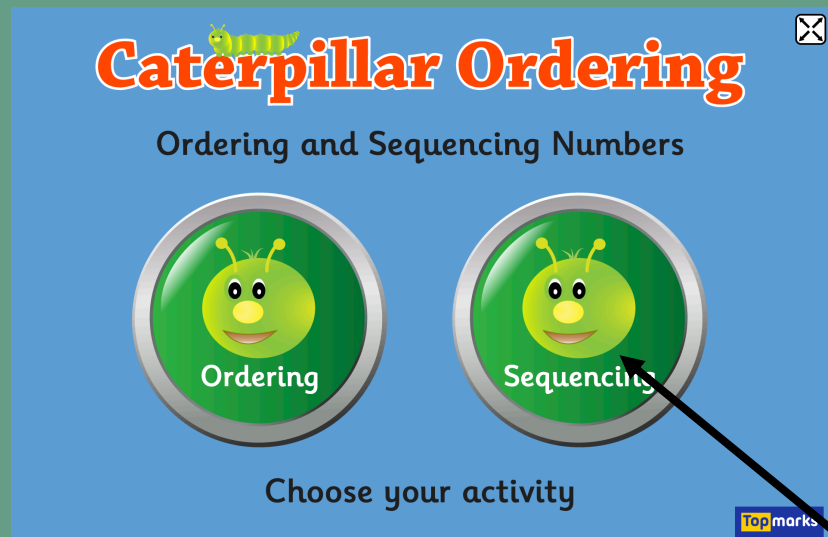

Monday 18th January 2021

Main activity: (15 mins)

Today I want you to think about what you did in the holidays. Ask your child to think about one of their favourite days whilst they have been at home.

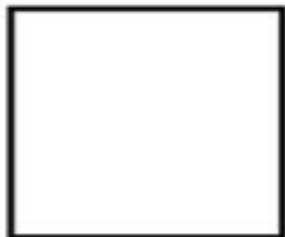

Let your child tell you about their favourite day- For example: first, I had a delicious breakfast. Then I got on the bus. Next, I went swimming. Then I went home and watched a film.

Now draw pictures to show your favourite day, remember to put them in order of what you did first, second, next, then, last etc!
