

KS1 Maths homework for the week beginning: 26th April 2021

Year 1: Draw the following adding combinations in your red homework book.

Adding More

Anna has room for ten minibeasts at her minibeast hotel. These are the groups of insects that she could use. She can use each group more than once.

3 	seven 	4 	six 
2 	five 	8 	one 

Anna wants to put the butterflies in her hotel. Explore different combinations of minibeasts she could use to fill her hotel.

$$\begin{array}{ccccccc}
 \boxed{\text{2 butterflies}} & + & \boxed{} & + & \boxed{} & = & \boxed{\text{ten}} \\
 \\
 \boxed{\text{ten}} & = & \boxed{} & + & \boxed{} & + & \boxed{\text{2 butterflies}} \\
 \\
 \boxed{} & + & \boxed{\text{2 butterflies}} & + & \boxed{} & = & \boxed{\text{ten}} \\
 \\
 \boxed{\text{ten}} & = & \boxed{} & + & \boxed{\text{2 butterflies}} & + & \boxed{}
 \end{array}$$

Year 2: Draw the following adding combinations in your red homework book.

1. Choose two of the digit cards below. Use the same two cards to complete both calculations below. See the example.

$$2 \square + \square = 24$$

$$3 \square + \square = 34$$

Example:

$$2 \square 0 + \square 4 = 24$$

$$3 \square 0 + \square 4 = 34$$

Do this again with two different cards.

2. Choose two of the digit cards below. Use the same two cards to complete each of the calculations below. See the example.

$$7 \square + \square = 78$$

$$8 \square + \square = 88$$

$$9 \square + \square = 98$$

Example:

$$7 \square 1 + \square 7 = 78$$

$$8 \square 1 + \square 7 = 88$$

$$9 \square 1 + \square 7 = 98$$

Do this again with two different cards

3. Choose two of the digit cards below. Use the same two cards to complete each of the calculations below. See the example.

$$7 \square + \square = 79$$

$$8 \square + \square = 89$$

$$9 \square + \square = 99$$

Example:

$$7 \square 0 + \square 9 = 79$$

$$8 \square 0 + \square 9 = 89$$

$$9 \square 0 + \square 9 = 99$$

Do this again with different cards.
