

Maths

For maths, your child is going to be learning which is more and which is less in a group. For your child to understand this a bit better have them watch the following video.

[\(500\) Comparing Numbers for Kids - Greater Than Less Than | Kindergarten and 1st Grade - YouTube](#)

Also have your child look at the following pictures and point out which picture has more, and which has less so you know they have understood the following concept.
