

Reception Literacy Homework

Your task is to do a creative writing on bees. I want you to think about all the things you have learnt about bees and write a short paragraph to tell me about what you know.

You will need to include:

- How do bees look like?
- Where bees live?
- What do bees take from flowers?
- And lastly why bees are important to us!

Use the pictures to help you to remember what to write about

Good luck with your writing; I can't wait to read them! Make sure you write independently without any help.
