

Nursery & Reception Literacy Homework

We have now completed and have come to an end of our 'Bee' topic. I hope you have learnt a lot about bees and learnt new things you never knew about bees before because I definitely have!

Your task is:

Nursery-

1. Ask your child one thing they have enjoyed and learnt about bees, write down what your child has said in their homework books.

Using any resources, you have at home, get your child to create their own bee.

Reception-

1. In your homework books, write everything you have learnt in this topic about bees. This needs to be independent writing, make sure you remember your capital letters, finger spaces and full stops.

Extension work for all children: A few weeks ago, you all took your sunflowers which you planted in class, I hope you have been watering them!! Look at your plants, have they grown? What can you see?

Draw how your plant looks like, label what parts you see on your plant and write a short description on how it looks like.
