

MATHS FLIP LEARNING – YEAR 1 AND 2

Assalamualaikum Year 1 and 2 pupils. I hope you are ready for this week's flip learning.

As we have now completed a full week in school and have been working very hard in Maths in counting numbers forwards and backwards, representing numbers using objects, and exploring tens and ones using place value counters and base 10 apparatus.

Next week we will be looking at comparing objects and numbers as well as using the place value chart.

To get you ready and up and running for upcoming lessons, I would like you to view the two links on place value and the areas you will be working on. Again, there are mathematical words on the links provided which you may want to express to your teacher and find out more about it.

There are plenty of tips and learning points to take in preparation for your upcoming lessons. Best of luck children.
