

M a t h s

Year 1 are learning how to make halves using shapes and whole numbers. Look at the questions and answer each one carefully, have a different colouring pencil ready so you can colour in and shade in the shapes.

One half of each of these figures is shaded:

Colour one half of each of these shapes:

Colour one half of each of these groups of animals:

What number is half of 2? _____

What number is half of 4? _____

What number is half of 6? _____

What number is half of 8? _____

What number is half of 10? _____

What number is half of 20? _____

Finding a Half

To find one-half.

Find different ways to shade the circles to show half.

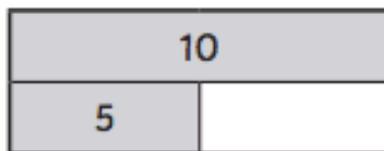

Ring the stars to find half.

The whole is .

$$\frac{1}{2} \text{ of } 8 = \text{ }$$

Complete the bar model to find half.
Use objects or pictures if needed.

The whole is .

$$\frac{\text{ }}{\text{ }} \text{ of } 10 = \text{ }$$

Use objects or pictures to find half.

$$\frac{1}{2} \text{ of } 6 = \text{ }$$

$$\frac{\text{ }}{\text{ }} \text{ of } 12 = \text{ }$$
