

## Project work for Food and International Culture week

Next week is food and international culture week and we will be looking at Africa. To celebrate the week, I would like you to design a poster all about Africa.

It can be about the different animals in Africa, the different tribes, the food in Africa or anything else you can find out. Watch the flip learning link for more information.

Remember to make your posters colourful and to include lots of information and pictures.

Have fun!
