Snippy the Crab's Shell Shop Equal Grouping

Snippy the crab has been busy collecting shells to sell in his shop. Can you help Snippy to group the shells into boxes of 2?

Draw boxes around each group of 2 shells. How many boxes can I fill?

How many full boxes are there?

How many full boxes are there?

How many full boxes are there?

What do you notice about these shells? Do they all fit into equal groups in the boxes?

How many full boxes are there?
