[2 step word problem - YouTube](#)

The diagram consists of a horizontal bar model. The top part of the bar is white and contains the text '£150'. The bottom part of the bar is light green and contains the text 'Savings'. A bracket is drawn above the bar, starting from the right edge of the '£150' section and extending to the right edge of the entire bar. The word 'Difference' is written in black text on a yellow background above the right end of the bracket.

**2 step word problem:
Find a fraction, then
find the difference**

Solving Multi-step Problems Involving Multiplication and Addition or Subtraction

Grade 4 Mathematics

CHERRY'S CLASSROOM

MATH *is* EASY

The image shows a green chalkboard with a wooden frame. The text is written in white and yellow. A red pencil and a wooden eraser are visible on the right side of the chalkboard.

YR6

[Math Antics - Long Division with 2-Digit Divisors - YouTube](#)

$$\begin{array}{r} 22 \\ 24 \overline{) 528} \\ \underline{-48} \\ 48 \\ \underline{-48} \\ 0 \end{array}$$

The image shows a man in a white t-shirt with the text 'math Antics' on it. He is standing in front of a blue grid background. To his left is a long division problem: 24 divided into 528, with a quotient of 22 and a remainder of 0. The steps of the division are shown: 24 times 22 equals 528, and 528 minus 48 equals 48, and 48 minus 48 equals 0.
