

## Subtraction – Crossing 10 2

Match the ten frames with the correct subtraction.

$$14 - 5 = 9$$

$$15 - 9 = 6$$

$$17 - 8 = 9$$

Complete the part-whole models and the subtractions to match the number story.

There are 11 balls. 6 are tennis balls.  
The rest are basketballs.

$$\square - \square = 5$$

There are 14 sweets. 8 are blue.  
The rest are orange.

$$14 - \square = \square$$

Use the bar models to find the difference.

The difference between 16 and 7 is .

$$16 - \square = \square$$

The difference between 12 and 6 is .

$$\square - 6 = \square$$

## The Addition Symbol

9a. Complete the number sentences below.

A.  $9 + 1 = \square$

B.  +  =  $\square$

C. six + two =  $\square$

VF

## The Addition Symbol

9b. Complete the number sentences below.

A. five + three =  $\square$

B.  $7 + 3 = \square$

C.  +  =  $\square$

VF

10a. True or false?

  
one + four = five

VF

10b. True or false?

  
 $7 + 2 = 10$

VF

11a. Write the missing number to complete the number sentence.

$\square + 5 = 7$

VF

11b. Write the missing number to complete the number sentence.

$4 + \square = 9$

VF

12a. Which number sentences could match the image?

A. six + four = ten

B.  $8 + 1 = 9$

C.  $5 + 5 = 10$

VF

12b. Which number sentences could match the image?

A.  $2 + 3 = 5$

B. four + one = five

C.  $4 + 1 = 5$
