Science Week Poster

Year 5 & 6 students will be researching about a science topic of their choice as part of our science week. Next week, I would like you to research some interesting and fun facts about your chosen science topic.

You can create

- **Posters**
- **Fact sheets**

Please ensure that your work is neat, tidy, and fabulous. So, you can have fun and the class can also have fun learning about what you have researched Insha Allah!

KS2 Science End of Unit Tests

Brian Egan

State of Matter

By the end of this lesson you will:

- Know what the three states of matter are.
- Tell the difference between the three states of matter.
- Able to identify solid, liquid, gas.
