

# Composition of 5 Interlocking Cubes

Using cubes in two different colours (such as blue and red), how many different ways can you find to make a tower of 5? Can you colour the cubes to show the different ways you made 5? You may wish to complete the number sentences to show what you found.

$$\square + \square = 5$$

$$\square + \square = 5$$

$$\square + \square = 5$$

$$\square + \square = 5$$

$$\square + \square = 5$$
