

The Adventures of Number Eleven

Meet Number Ten

Hello, I am Number Ten.
What do you notice
about me? What do I
have 10 of? I'm off for
lunch in a basket with
my friend, Number One.
How many sandwiches
did I need to buy?
How many sandwiches
do you count?
I need to buy 10
sandwiches with me.

Meet Number One

Today I am going to
help you learn
with me.
Number One
goes to school
with a
balloon! How many
sandwiches do I have?

Number Ten and Number One arrived at the hot-air balloon park. They were excited to see each other and they both had a funny feeling. Then, there was a loud bang and...

...something magical happened!

Number Eleven looked at the hot-air balloons and decided which one to travel in. Which hot-air balloon do you think Number Eleven chose?

I chose this balloon. It has 11 spots.

Number Eleven saw a sign which said that he had to pay 11p to travel in the balloon.

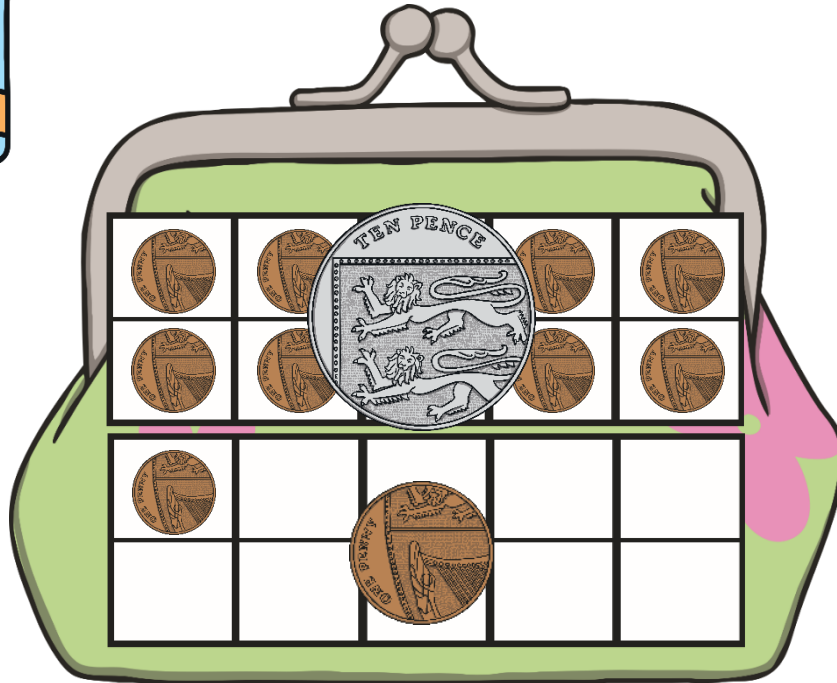

Can you help me
a
loon!

Try again.

That's right, there are 11 pennies in this purse. We can make 11p another way – click me to take a look. Talk about what you can see this time.

Number Eleven was suddenly very hungry. Time for lunch!

Can you remember how many sandwiches **Number Ten** packed? Click on the correct picnic basket.

Can you remember how many sandwiches **Number One** packed? Click on the correct ten-frame.

We make 11.

How many sandwiches
do we have altogether?
Can you tell a partner?
Click me to check.

I am 1.

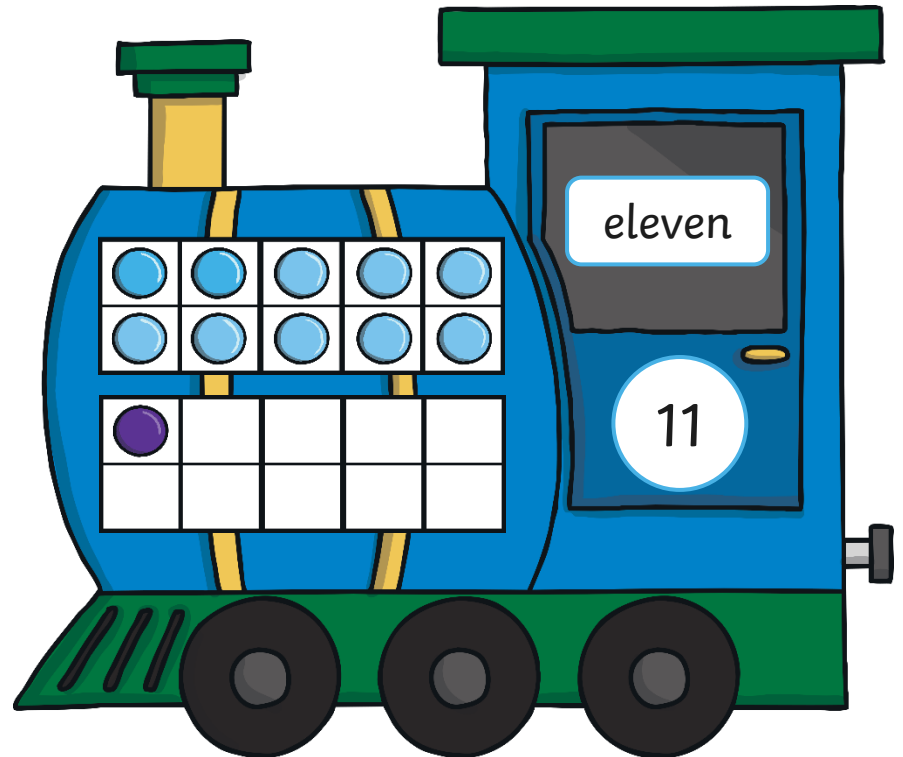

I am one 10.

After lunch, Number Eleven looked down from the hot-air balloon and saw a train.

How did you know it was the number 11 train?

Number Eleven watched the train move along the track.

Try again.

The carriages are numbered but some of the numbers are missing. Which carriage do you think would be number 11? Click it to check.

Up and up went the hot-air balloon. Number Eleven looked down on all the cows in the fields. I wonder which field has 11 cows. Can you help?

We can see 11 cows altogether.

I can
Try again.

I can see 1 cow.

Up and up Number Eleven floated in his balloon. He saw the sun shining brightly in the sky. It had 11 rays. Can you click on the correct sun? How do you know that is the sun Number Eleven saw?

Try again. ture s.

Number Eleven saw some birds flying past the balloon.

How many birds are in front of the yellow sun? How many birds are in front of the cloud?

We make 11.

I am one 10.

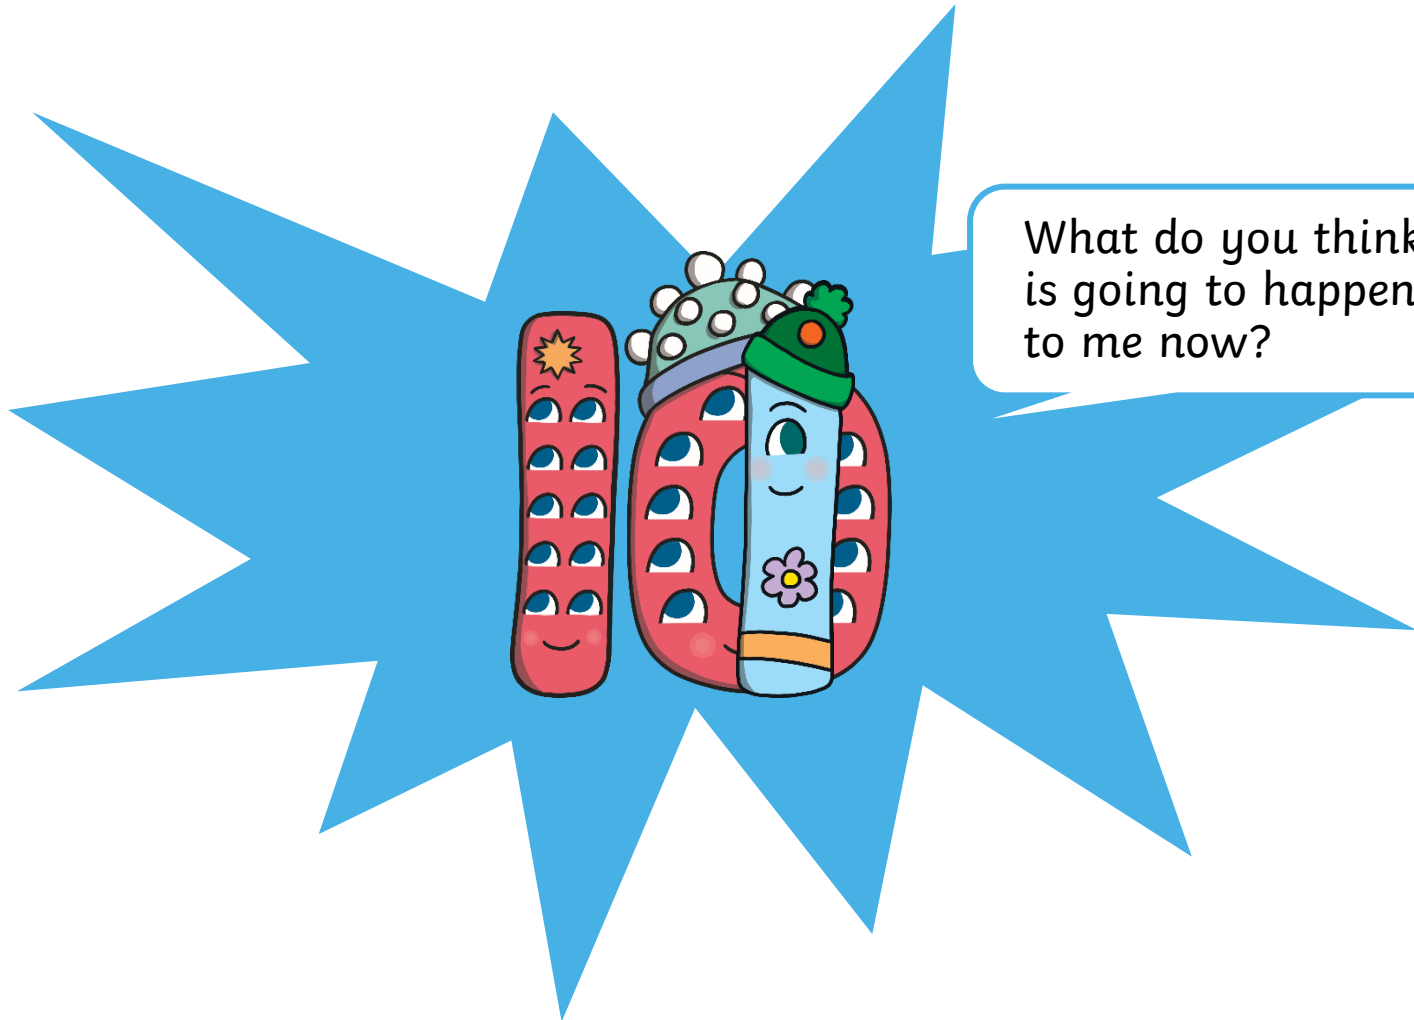

I am 1.

It was time for Number Eleven to go home. He started to have a funny feeling.

Suddenly, there was another loud bang!

What do you think is going to happen to me now?

Number Ten and Number One said goodbye to each other and made their way home.

Can you find 11 on the number track? Click on Number Eleven to move him onto the number track.

Which number comes before number 11? Which number comes after number 11? Can you spot any patterns when you look at the number track?
