# Partitioning

How many ways can you partition these numbers?  
The first two have been done for you.

$$42 = 40 + 2$$

$$42 = 30 + 12$$

$$42 = \boxed{\phantom{000}}$$

$$42 = \boxed{\phantom{000}}$$

$$57 = 50 + 7$$

$$57 = \boxed{\phantom{000}}$$

$$57 = \boxed{\phantom{000}}$$

$$57 = \boxed{\phantom{000}}$$

$$57 = \boxed{\phantom{000}}$$

$$68 = \boxed{\phantom{000}}$$

$$68 = \boxed{\phantom{000}}$$

$$68 = \boxed{\phantom{000}}$$

$$68 = \boxed{\phantom{000}}$$

$$68 = \boxed{\phantom{000}}$$
